		""There is absolutely no reason why my inhalers - a medication I have been using for nearly 30 years - should be taken off my list of medications to order via repeat prescription. Whomever was in charge of automating the app/tech in the background has chosen poorly and I certainly will not be the only patient unable to get potentially life-saving medication due to this negligence. Other parties would have been involved with this oversight too, so worrisome all around. ""
